EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

- Claims 13-16 have been cancelled.
- In Specification p. 6, the last three lines have been changed to:

--Figures 5a and 5b are exploded cross section views of components used to construct a flex cable according to the present invention;

Figures 6a and 6b are flow charts illustrating a method of making the present invention. –

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

- With regard to independent claims 10, 11, 12, 17, and 18, as the closest reference of record, Shin (US 2003/0086214) shows a damped flexible cable (FPC) for use in a magnetic memory device including: an electrically conductive lead; a vibration damping material disposed adjacent to the electrical lead; and an insulating material surrounding the vibration damping material and at least a portion of the electrical lead, wherein the vibration damping material is configured to be relatively wider/thicker in areas wherein more damping is required and relatively narrower/thinner elsewhere; **but fails to show** that the damping material covers an area at least 1/3 of the area of the flexible cable.

- Applicant asserts; this invention provides means for effectively damping vibration in a flexible cable of a disk drive device, while minimizing the use of addition components (Specification, p. 3).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
